ISO 20022 — the financial messaging standard in TradFi

ISO 20022 is the successor to **SWIFT MT** messages

It connects banks, corporates, ERPs, and portfolio managers.

Translate Stablecoin Payments into the TradFi language.

Gbits' Hackathon Submission

Bidirectional bridge

Solana transaction → ISO 20022 camt.053 | camt.054

Every on-chain Stablecoin transfer maps to a structured bank statement entry.

SOLANA RPC · ON-CHAIN

```
{
  "signature": "4sGjMW1..."
  "amount": 1949.75
  "token": "VCHF"
  "from": "7xKXtg2C..."
